

7Funds is the first backed meme token.

A project that has provided a solution to the problem of continuous growth and maintaining the value of meme tokens.

The way of 7funds for better price growth and to prevent the price from falling is to invest project capital in seven funds.

Maintaining the value and upward trend of the project are two basic results.

1. Preserving value:

The funds of the project will be spent on the purchase of growing and profitable assets that will become a back for the token, these assets will act as a back that maintain the value of the token.

2. Upward trend

Since the project's investments are expected to be profitable, the project will redeem the tokens with the profit obtained from investments.

Also when more tokens are released, the project will can add more liquidity , it's an anti-inflationary process, and as expected 7Funds will continue to grow.

Project investments will be in seven funds, which are:

1-Cryptocurrency fund bitcoin
and etc

2- Commodity fund
Oil, gold and silver.

3-Technology fund

Artificial intelligence technologies, 3D printers , computer softwares, smartphones.

4- Stock fund

Nasdaq , S&P, stock market index.

5- Real estate fund Real estates.

6- Industries Fund

Automobile manufacturing, transportation, shipping, steel industries, food industries, construction industries.

7- Open fund

Startups, art, sports, cinema.

7Funds is a community-based project and it will interlocation with the community for expansion investment strategies and conduct surveys for this purpose.

Also, to expand the investment team in the future, the project will have official cooperation with community members who have sufficient expertise and skills.
